Subject: update on San Joaquin restoration-- - Fisheries Group

2/12/07-- I spoke with a contractor (Ajay Singh) working with one of the four San Joaquin river restoration technical work groups-- fisheries. The two groups of most interest to us would be fisheries and environmental compliance (with the expectation that both will address water quality and aquatic habitat). For fisheries, agency and ngos/stakeholders may be convened regularly (e.g., monthly) to review and advise on the information being developed, analyses, etc. (A few agency folks have been working on initial prep, I gather.)  
The first fisheries meeting will be in Turlock, 3/11 from 1-3 pm, with possibility (tbd) of call-in. Bruce and I are both available that afternoon.

Ajay thought that the envir. compliance work group would start meeting in April. I'll check with Shane Hunt.  
Please let me know if you have questions, etc. We'll be in touch with Ajay later this month.  
Thanks,  
Carolyn

SJRRP- Fisheries Group

Carolyn,

Sorry I missed your call this morning.

The Fisheries Work Group is looking for your input on the documents and plans that they are working on. This process is informal but is leading towards the more formal EIR/EIS process. Since this project is so large and complex some team members are asking for input along the way. We are looking to have the first Fisheries Technical Feedback Group on March 11. Please let me know if you are available.

Cheers,

Ajay Singh
